

Get Behind Your Waterfront...again!

Collaboration & Partnership

Inspiration Port Credit is about embracing the important history of Port Credit while envisioning a bright, new future for the waterfront. Working with Canada Lands Company Limited and Imperial Oil Limited, we envision a fresh, new future for Port Credit that respects the dreams of its residents and enhances this already vibrant community.

Our Role & Responsibility

It's important that the City of Mississauga take a leading role in working with the community to chart the future of Port Credit. The Mississauga Official Plan provides the policy framework to guide and direct growth in the city and to establish policies for both publicly and privately owned lands that will guide future development. Working within the framework of the draft Port Credit Local Area Plan, and being sensitive to Canada Lands Company's desire to plan for the future of the Port Credit Harbour Marina, and understanding the options for the Imperial Oil lands, Inspiration Port Credit will help connect all the related policies and goals for the community to provide direction for future development and City capital projects in Port Credit. The City's Strategic Plan sets a visionary action to create a sustainable and creative community on our waterfront.

How We'll Connect with You

The project study area involves two waterfront areas: the Imperial Oil Limited land and Port Credit Harbour Marina. Following a public outreach, similar to *Inspiration Lakeview*, we'll involve the community in workshops to capture your ideas and thoughts. But we'll change it up as we know that different parts of this area are at different stages of development.

What We Plan to Achieve

Inspiration Port Credit will help us establish a comprehensive Master Plan and implementation plan to guide the City towards the realization and full potential of the waterfront sites. We'll then be able to weave together the various City, public and private Port Credit initiatives to foster sustainable partnerships between the City, landowners, community partners and stakeholders. Launched on May 9, 2012 by Council, Inspiration Port Credit will be completed over the next 12 months.
