## **Discussion Question**

---

**What elements of your vision for Port Credit do you think could be realized through the redevelopment of the 1 Port Street site?**

Please focus on function not form. This is your opportunity to talk about what you think should go on down there rather than what it looks like. There will be other sessions just like this one to discuss built form.

*Thank you for your participation today. If you have additional feedback on the discussion question after today's session, please send it to the facilitation team by **Tuesday, June 5**. You can do so by emailing [oneportstreet@canurb.org](mailto:oneportstreet@canurb.org). For more information visit [www.oneportstreet.ca](http://www.oneportstreet.ca).*
